## Foreword

As this book concluded with our vacation trip to Catalina Island, God confirmed a lot of things to me. This however doesn't put God's seal of approval on everything I've tried to teach herein. But, I feel it does warn everyone to take notice of the possibilities stated. In some cases you hope you're wrong about some things. For more than anything, this book opens the scriptural possibility that end time events are about to unfold right before the eyes of this generation!

I handed this book to my pastor (R.C. Haus) on Tuesday, May 28, 1996, at exactly 6:55 P.M. (PST). Three hours earlier, at exactly the same time, tornadoes were ravishing Kentucky! That's not unusual, or a miracle, for this time of year and it's probably why they released the movie "Tornado" at this time of year. What was unusual was the fact that there were exactly five tornadoes occurring at the exact time I handed the triple P.S. (that I had printed out on Memorial Day) to my pastor! They touched down in eight counties and formed over Dubois County. Also, there were nine persons injured, or who reported to hospitals, and there were no deaths!

My question is, "Did the people who lost their homes draw closer to God, or did they curse Him?" The storms that have followed have caused people to lose their lives! With the vortices associated with these storms one can't but think of how the hand of God represents the Anointing! This could only be construed as a warning and judgment on American and the world! One lady reportedly went out to see the movie and when she returned, she found that her home was blown away!

I subsequently remembered that in the Hebrew Bible (the Old Testament) there are five books of the Psalms to match the five books of the Pentateuch; and Jerusalem sits today on five main hills--Mount Zion, Olivet, Moriah, Ophel, and Scopus! There were five main supports (which stand for stability) in the desert tabernacle.

From a New Testament view, Jesus has five letters in His name; there are five-fold ministries in the church; and there were five prophets and

teachers at Antioch. Also, my pastor's son (Ron) turned five years old shortly after this, and that was the age his dad had given his life to the Lord! Why am I saying all this or giving these examples?

Well, just to show that God does use precedents and parallels, or patterns, for us to take notice, and He uses them to reveal His plans for this world! There is a wrong way of using numerology for fortune telling and it is a counterfeit of God's true plans.

It became apparent to me, as I concluded this book, that God was pointing my birth date out as a time line for Israel's destiny.

One would have to say that, at the very least, it's scripturally possible that when Jesus said that generation (the one that saw the rebirth of Israel 'The Fig Tree' in 1948) would not pass away (within my life time) until 'all these things' (the end of the age) were fulfilled, which would be the case with a no millennium viewpoint! (Matthew 24:34) That's exactly what I was thinking was possible as I walked around Tomorrowland. It was being rebuilt!

This entire forward is being written after the fact, for I've run into many delays and setbacks in getting this published, as well as (like so many others) a busy life of family, church and ministry, Bible Institute, and work.

Not really asking, I wonder if the Lord would still reconfirm this work since it's just weeks until Easter some two years after I wrote this and not having this work published. Then my local paper reported on Friday the 20th of February, 1998, that the day before, at 12:30 p.m., a tornado (just a few miles east of us) in Brentwood, CA, hovered over and dropped down right at Jesus' house (Jesus Cruz, that is), then moved across the boulevard where it demolished a 120' x 40' shed and littered the floor with seed packages! Pastor R.C. Haus had said the next Sunday's services that he'd bought seeds at some nursery that week to sow in his home garden! It's devastating to everyone who has witnessed (what they believed to be) a tornado of F-FIVE magnitude ravish Florida just recently! Disasters like this are the random results of natural weather patterns based on global warming, ozone depletion, pollution, El Nino, or whatever else affects these things; but God, in His sovereignty, most certainly can supernaturally intervene to control the weather. After all, Jesus spoke to the storm, "Peace, be still!"
