Excellence in the Artistry of Reborn

You, too, can transform a baby doll into a "Precious, True To Life Artist Baby"

Where each and every Baby is a "One Of A Kind" Original

Thank you for taking the time to read this introduction for *Learn the Art: Case Study#9 "Newborn and Just born Skin Layering Techniques"*. This book is part of a series of instruction books that look into more details and specifics of the Reborn Artistry process for Vinyl Doll reborns.

Learn the Art: Case Study #9 "Newborn and Justborn Layering Techniques"... will provide you a step by step process of transforming a Vinyl Baby Doll into a cherished collector reborn. We will be using the Berenguer Special Edition Body as our palette to see the amazing results you can achieve with these techniques. The prerequisites of this book is that you already know how to paint or stain the inside of your vinyl dolls to get the initial base tone of the vinyl. If you don't have this knowledge, then review Excellence in Reborn Artistry™ "Learn The Basics" or Excellence in Reborn Artistry™ "Learn The Art" for basic reborn instruction techniques.

Breathtakingly, Realistic Skin Tone, with custom life-like hand-applied features. In order to make sure that the baby's coloring is as perfect as possible and true to life, we will use an external application of a variety of colors. This subtle technique can be used with Pigment Inks, Genesis Heat set paints, Acrylics, and Artist Oils. You will apply, dab

and blot the layers to create depth and variations; with final touches in highlighting and shading that will give your baby that natural healthy glow and will make him/her so unique and one-of-a-kind.

Subtle Veining... In this case study, we will show you how to apply very realistic and subtle veins. Internal or external veining techniques can be used, as well as accent points representing capillaries and shading that will make your reborn just that much more special and spectacular. These extra details are fun and can add that little extra touch to the baby's realism.

Skin Variations... There are many opportunities in developing that Justborn and Newborn skin for a realistic and natural look. Join us now to see the use of techniques that will truly make your reborns amazing.
