Chapter 11: Vacations and Road Trips	81
Conclusion	91

Chapter 1

Why Kinky Sex?

Why kinky sex? Because it's just plain fun. The heat and passion that can be generated from some of the simplest, silliest and craziest things can be scorching-hot and exciting. The adrenaline gets pumping, the heart starts thumping, and the rush that comes over you when you engage in something that is so exhilarating is indescribable.

I know from firsthand experience that the above is true. If you're lucky, as I am, to be blessed with a man who is not only a willing partner but a masterful initiator (but even if this is not your situation) kinky sex can bring some of the most intense pleasure you will ever experience.

Kinky sex has enhanced my life and sex life and added loads of fun to everyday things. While I have had the pleasure of kinky sex in my life for many years, it wasn't until I fully embraced it that I realized what powerful heat and passion it could bring. It gives me a sense of living on the edge, and it

Alana Grey

makes me feel adventurous and daring. It's just an awesome feeling for both you and your partner.

Kinky sexy takes sex to a level where sex should be. It allows you to take a journey that could last from minutes to hours to days and when you really get the concept of kinky sex, you'll realize it's more about the journey than the end.

The journey can consist of a variety of things. Some things are just playful and fun, while others can be hot, intense, and daring.

Sometimes the journey can be over in a matter of minutes, and sometimes it's extended over a period of time where you push it to the edge and back multiple times culminating in an explosive, passionate ending. As stated above, it is more about the journey than the end, but the end ain't bad either.

Kinky sex is something that can be done anytime, anywhere, and often in such a subtle way that only you and your partner know about it. It just adds spice to life.

I can give you many reasons for why you should enjoy kinky sex, but I find it very difficult, if not impossible, to come

The Joy of Kinky and Spicy Sex

up with a single reason as to why one would not participate in something that has the ability to make a relationship more fulfilling than it would have been without it.

If you'll open up your mind and let creative thoughts in, I believe, you will find the rewards to be well worth it.

The Joy of Kinky and Spicy Sex is a very entertaining, funny, and informative book with real life experiences on how-to take everyday things and turn them into exciting and adventurous fun.
