Guideline #2 – Prosperity

“To prosper: to succeed, to thrive”, *Webster’s Dictionary

The measure of your own prosperity is determined by the amount of health, wealth, love and success you are currently experiencing in your life right now. Whatever your definition of prosperity: wealth, employment, housing, career, money, friendship, love, success, health... Source’s unending supply is the very foundation upon which your prosperity rests. This will help you focus your attention on knowing all that you have comes from Source and through Source all things are possible.

How is your prosperity? What have you created in your life that reflects this? Look around you and see just what you have manifested for yourself. Are you surrounded with a lovely place to live and work? Do you have a comfortable vehicle to drive you to wherever you need to go? Are you surrounded with loving family and friends? How do you feel about what you have manifested in your life right now? Are you happy with what you see? Are you enjoying what you have manifested? Or are you still waiting for your prosperity to happen? Waiting for when the mortgage is paid off or the children are finished with college? Or the credit card debt is paid?

Where is your prosperity? Where does it come from? It comes from a purely spiritual basis. It is manifested physically and mentally but it comes from One Source. The basis of this Law of Prosperity is the beginning of knowing and believing that Source is your one and only means for everything and through Source you will receive whatever it is that you need or ask for. Source's unending supply is the very

foundation upon which your prosperity rests and there is more than enough to go around for everybody, no kidding! .

Whatever your personal definition of prosperity; employment, career, housing, money, friendship, love, success, health, wealth... Know that all of this comes from the One Source. It does not come from your employer, or your parents or your spouse or partner. They are only the channels through which your prosperity flows...

Prosperity is not a sin. Some of us have been conditioned by our own belief systems to think that prosperity and abundance are a bad thing and that we don't deserve to be prosperous. We have been conditioned to believe that we are supposed to struggle and do without whatever it is that we really want. Is this a belief that you want to foster? Is this what you want to believe? Sometimes this "conditioning" comes from childhood beliefs, beliefs that there is never enough, that living in Lack is normal and a natural thing.

It is good to be prosperous! Know that you deserve to be prosperous! Prosperity is your Divine Birthright. You were not born into this lifetime to be a condition of poverty or strife. You were born to be prosperous. As a newborn baby and growing up through childhood you were taught basic beliefs. Whatever you learned will give you an idea of where some of your beliefs came from and which ones you need to change. And you can change them.... Begin with these Laws, the Basic ones offered here and see how remarkably quick your life can change. It always amazes me how easy it is to get my life back on track. There are no mistakes, there are no wrong ways of doing things.
