Research bibliography .....	111
About the Author .....	113
The Story of Making the Mule Missouri's Official State Animal .....	117

## CHAPTER 3: YOU MIGHT BE A ZOMBIE

The word zombie comes from the voodoo culture, referring to a dead person that is walking about and not talking. By definition it is not exactly the monster Hollywood horror movies portray - that is an over-exaggeration. The original zombie had meaning to a person's everyday life. To many, it was a factual reality.

The term originated in the Caribbean roughly a couple hundred years ago as a counter to the Christian Evangelists spreading the word of the gospel. Superstitious people quickly learned techniques to neutralize the power of the word of God and the preaching of moral standards.

The voodoo doll, a symbol of the zombie target, aka "the preacher," was used as a reminder, as females collected and archived negative statements and/or actions a preachy person was caught doing.

Each time the witch found fault with something the zombie target was doing she placed a pin in his voodoo doll. Once the witch got enough pins, the doll had archives full of reminders of negative behavior designed to neutralize the zombie target. Zombies could no longer speak to pass moral judgment or Biblical instruction because the witches could hold their past over their heads.

This served as a constant reminder for people to see what the “the preacher” has done. It acted as a warning to not listen to him.

The modern American news media is an expert at this zombie making technique. It spooks any knowledgeable person, aka “the preacher,” from speaking truth in survival behavior or identifying enemy behavior. Regardless of if they are or are not on television. The power of mass media communication has ultimate voodoo power over the entire population.

Camera voodoo magic is based upon the relationship of the powers of Satan with the strategic intent of stopping communication of human life survival. Media “voodoo magic” is the polar opposite of the teachings of Jesus;

that all humans make mistakes and to get along you will have to forgive one another.

The modern voodoo magic is now contained through recorded television data found in the archives. This makes it possible for the talking heads, the witch doctors, to dig up something in somebody's past, holding them prisoner and preventing them from speaking for the good of humanity. What is going on in front of you as you watch the news is an amplification of this known technique by the enemy as it attempts to destroy human leadership making zombies out of good humans - "preachers" - who are communicating information for the benefit of others in an articulate voice. This is very effective, as zombie control appeals to a wide range of people with multiple viewpoints in an attempt to keep the truth unknown.

Good people appear dead, not able to muster enough courage to speak up. This is mostly because so many are talking about the harmful acts being inflicted by others just to produce enough fear of being voodoo'd by television cameras.

## **False prophet AKA Cable TV news**

Cable TV news comes right before return space contact is made. Why? Cable TV news is the enemy delay and confuse system with dictatorship with authority over all humans held in Zombie apocalypse space alone matrix. Cable TV news really doesn't want earth to get any part of God's message. It is the voice against the voice of truth. The enemy captive reality is what Cable TV news wants you to think in the Zombie apocalypse space alone matrix.

Who can ever deny the power of the camera that can make anyone famous and destroy the target's zombie's life? Zombie people believe Cable TV news like clockwork in the Zombie apocalypse space alone matrix.

Everyone in the Zombie apocalypse space alone matrix loves and practices falsehood; which is absence of truth or accuracy in a communication. In the Zombie apocalypse space alone matrix nobody is ever right and everybody is wrong; all the time. The power of Cable TV news is what in what they don't tell you. Cable TV news can make anyone famous. Cable TV news can destroy anyone's life career.

## *Zombie Apocalypse Training*

Cable TV news give the fattest mouth of his choosing air time to make statements that support his master Satan's viewpoint, everybody is wrong except those that are helping Satan. And do not ever say Jesus!

The true apocalypse is when we here on Earth realize there is a space war and forces outside our solar system have the energy and the technology to affect our planet.

### **What have you really seen on cable news?**

The zombie apocalypse is happening now. We are not alone in space and nobody is talking about it on TV.

## CHAPTER 9:

### AREA 51

Matthew, an alien hunter in a blue golf shirt sporting a 2019 New Zealand World Cup baseball cap, lifted his camera for another Facebook post. He was standing outside Area 51 by alien tourist attractions on the Extraterrestrial Highway in Nevada. Exposing Area 51, the secret government hideaway, where alien bodies are stored is what Area 51 is all about.

Area 51 is north of Las Vegas near the Edwards Air Force Base, an area for testing specialty aircraft like the U2 and developing technology for the Air Force. Now Area 51, as you well know, has been strongly associated with aliens, made famous in the 1950's story of a crashed alien spaceship and recovered alien body. It received a variety of news coverage as the Roswell UFO.

There are no alien spaceships in Area 51. There are no alien bodies. Space is too big for a body to travel. It

would never stay alive long enough to travel the vast distances between solar systems. Science knows and understands this and nothing about Area 51 involves the landing of an alien spacecraft.

Area 51 was a code name used by intelligence agencies to remove information about materials they did not want the public to see. When they discovered a book or scientific writing that uncovered something they did not want the public to know they would label it and send it off to Area 51.

Here is my best guess as to why Area 51 is associated with aliens. Somewhere in the 1940's, after World War II, the Germans wanted to keep the conspiracy theorist happy. And wa-la, we have aliens.

Archeologists had discovered a very special and disturbing fossil, a lizard man's skeleton. It was a bipedal form of reptile. The lizard man skeleton, aka the reptilian, is the smoking gun to the reptilian nemesis in space. No world government wanted this information brought to the public so they embarked on an erasure program. The Devil always likes to erase evidence; it is one of his key characteristics.

All data on the reptilian was sent to Area 51 to prevent the spread of the skeleton's discovery, because the implications are too scary for the public and may cause panic. However, it was impossible to keep the lid on the discovery as rumors spread about it being an alien.

A lot of smart scientists knew what this meant; there was another life system in our galaxy. It was rock solid, factual evidence of a bipedal competing life form.

So they had to create a cover story. A story bizarre is enough to divert the public's interest from the truth, keeping it in the realm of UFOs. The subject matter of extraterrestrial life had slipped out. The cat was out of the bag.

The real enemy is the primary life form of the dinosaur/reptile system occupying Earth millions of years ago. Aliens did not land in Roswell. They were already here.

## **CHAPTER 21:**

# WHY THE WAR ON CHRISTMAS

And here we are today celebrating Christmas 2,000 years later.

In December 2018 an article appeared in Newsweek magazine: “City removes decades-old nativity scene after constitutional complaints.” The war on Christmas is alive and well in the United States of America. However, banning a simple symbol designed to remind people of God, hope, and that a savior is coming, is not something the enemy wants to be remembered.

The zombie city is approximately 35 miles north of Portland, Oregon. This city began receiving complaints regarding the constitutional limits of a religious display on public property. The complaints made to “the zombie city’s leadership,” were proved well-founded and the Nativity scene was a religious display was not allowed to be erected on public property.

Even if public funds were not used. The mayor and city council consulted a federal attorney who said “yes,” and according to his understanding, the constitutional limits of spending public money on such are not allowed. In fact, in 1989 the Supreme Court had in several major cases and ruled the First Amendment's establishment clause was specifically around nativity scenes. This was the case of *The County of Allegheny versus the ACLU*, in which the Supreme Court ruled that a Nativity scene violated the establishment clause. Thus the government ruled Christmas is some sort of a phenomenon, suggesting the people of America praise God for the birth of Jesus Christ on their own land. The Nativity scene is the symbol of Christmas, an important piece of evidence the enemy wants erased.

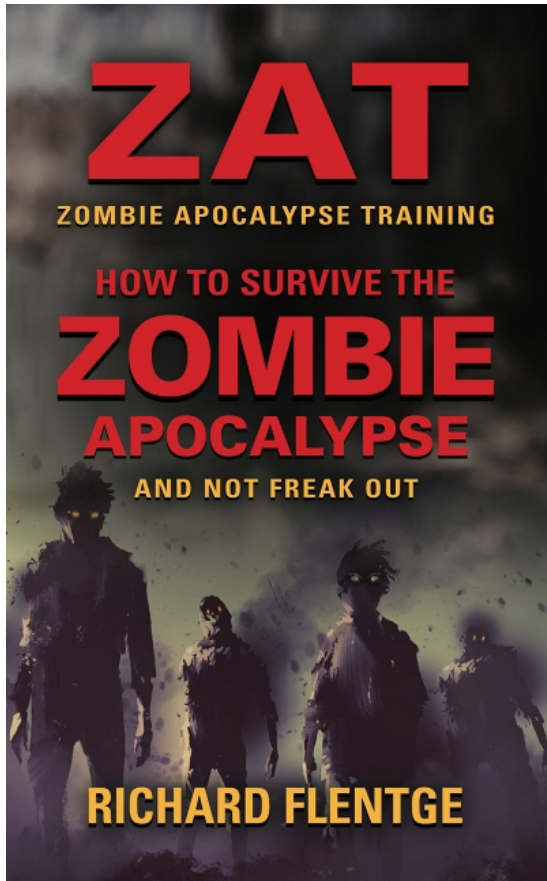

Christmas is a whole lot more than just a Nativity scene. It has massive implications here on Earth. The return of space transmissions with God and his chosen Messiah creates large-scale intelligence advancement; it will solve all our problems, cure diseases, and end all wars. It creates an unbreakable economy and makes life on Earth heavenly. All we have to do is receive the message and stop the activity of the enemy. If Christmas does not occur, none of this happens.

The underlying damning forces of the enemy are to erase the concept of Christmas from everyone's minds.

Based on our orbit positions, Christmas starts around the winter solstice and ends during the spring equinox with Easter. This adds a very critical time dimension element to communicating with God. Mass communication occurs in a concentrated form during this space position. Between Christmas and Easter is when the space transmission occurs. This is the perfect "time" in space positioning.

**Christmas is to get earth ready for space contact.**

*The book takes a realistic approach to apocalyptic events occurring over the last 20 years, focusing on evidence-based connections between biblical text and current events. ZAT covers a wide range of conspiracy theory subject matters.*
