Excellence in the Artistry of Reborn

You, too, can transform a baby doll into a
"Precious, True To Life Artist Baby"

Where each and every Baby is a
"One Of A Kind" Original

Thank you for taking the time to read this book on the reborn artistry process. It takes about 3 - 4 weeks to create just one healthy baby, so try very hard not to rush the process. It should be your goal to create the most amazingly & realistic baby possible with your talent and abilities.

An Overview of Reborn Artistry with Excellence in Quality & Beauty...

How the babies begin life... Each baby starts out as beautiful doll waiting to be reborn. Your dedication and time commitment in this process will give you and your baby the most amazingly realistic skin-tone. For the reborn artist newbies, there are some less risky and less messy ways to bring color to your new baby that we will discuss in the bathing section.

REALISTIC Hair... Custom Babies can have the most AMAZINGLY Realistic head of hair imaginable. The mohair you should use is the more expensive premium mohair. This mohair is silky smooth with the feel & look of a real baby's hair. For the novice, Wispy Wigs and other types of wigs are an option. The choice is really yours to make.

Uniquely Designed, Custom Cloth Body & Options. You may choose to change the body of your baby. So many options now exist for those on a low budget, and of course there are many types of bodies as well as types of material available. All the extra attention & details you will have in designing & weighting the baby's body will enable her or him to be unbelievably realistic & cuddly.

Breathtakingly, Realistic Skin Tone, can be achieved with custom life-like hand-applied features. In order to make sure that the baby's coloring is as perfect as possible and true to life, you will need to go beyond the bathing process. Your baby will not be merely color washed, you will meticulously blend with colors inside and out with specially blended pigments and inks.

All the other necessities. You can give your baby a manicure with a special treatment of sealers that leave them transparent and realistic-looking. Various options are available from French Tips, to Natural Tips, to glossing only (for our boy babies). You can even go beyond the normal to create little cuticles marks at the base of their nails. Their lips will also need to be blushed and sealed to have a more natural & glossy look.

For breathing babies. You will sculpt the inside of the nose, and when appropriate, provide a black or dark brown felt backing. Only at the request of the parents should you open the baby's mouth, as it is preferred to leave the vinyl intact, in order to not compromise the integrity of the baby's vinyl.

Bring to life, your own Custom Reborn Baby all they need is the time, love, and dedication you can bring into their life.

Isn't it time for A Precious Heirloom Baby of your very own?

Please note: The tips, techniques and guidelines provided in this book are informational in order to give the reader a feel for the efforts of the artist, and may not be included in each and every baby you create.

Reborn at your own risk. Each doll is different and this book provides techniques, hints and suggestions, based on the frame of reference and experience of the writer. No warranties or guarantees are provided in your reborn activities.
