## INTRODUCTION

For those who have looked closely at the Great Seal of the United States of America, it displays many occult symbols. Most obvious is the unfinished pyramid with reference to Gizah and the country of Egypt.

It is said that the first democratic government that existed was in ancient Egypt and Akhnaton was its leader. He was described as a very young Priest-King and Pharaoh of ancient Egypt, who exemplified social consciousness in the administration of a great nation. He saw every living thing as having a Divine right to live well, to hope, and to aspire in a world governed by brotherly love. Described as the first pacifist, the first realist, the first monotheist, the first democrat, the first heretic, the first humanitarian, the first internationalist, the first person known to attempt to found a religion, and was thought to be born several thousand years before his time.

This is the blueprint on which the United States government was founded. Akhnaton, like the emerging group of adepts and initiates who make up the Fifth Kingdom of God-Men, represent the radiant floating capstone or tetrahedron of divine fire on the Great Seal that will complete the masonry of the pyramid. This same group of enlightened men and women embody the New World Order and are a new species of humans on the planet, who through their upward climb from the valley of human suffering, have achieved liberation and made wise by the ascent to the mountaintop of spiritual attainment. They are the guardians of the Race of Man who have guided humanity's evolution. They are now stepping forward to take their positions externally in the different systems, departments and institutions of both the public and private sectors.

The United States of America has been described as the strong child of Europe established through the efforts of the six esoteric orders of Germany, Ireland, France, Scotland, The Netherlands and England.

It was to Francis Bacon of England, however, that the vision for the establishment of the philosophic empire called the New Atlantis was given. Together with members from these and other countries, the Idea that we call America came to be born in North America.

This 'American Idea' began as far back as two thousand years B.C.; the mystical orders of Egypt were aware of the existence of the great western continent called America, and decided that it should be the site of this philosophic empire.

It was also Bacon's conviction that the "Order of the Quest" should be set up in the divinely assigned land of America, which he called the New Atlantis, and that the vision and philosophy of the Quest was to be the foundation upon which the American Republic should be built.

The destiny of this nation, with an Aquarian soul, will see the unfoldment of its people bring about a new age of humanity in which Service, Synthesis, Brotherhood, the restoration of the Feminine to equal power and rulership, and Masonry will be hallmarks.

To America is entrusted the task of making this a reality for its people and then to become a model to the world.
