“The angel on the cover is rich in symbolism of Georgie’s journey from years of running on empty to what it takes to heal hidden hurts and find our true selves.” Cecilia Harrison, Mother of 5 boys, Spiritual Director

CHAPTER 1

I was Determined to Heal

Currently it is estimated that over 45 million people worldwide suffer from Rosacea and far more from acne. I developed acne that was later diagnosed as an extreme case of Rosacea and near blindness. I holistically healed, I have walked the path before you, so you can eliminate many of the mistakes I made along the way. I believe with understanding anyone can heal even better than I did. I am dedicated to be part of the solution, determined to do my part in helping people reclaim their faces rather than fear them. I want to help avoid future suffering and the low self-esteem along with shame that comes with having Rosacea and acne.

I share from my own experience and my experience working with hundreds of others by phone or in person. I have discovered some obvious emotional and physical indicators of where to find healing answers. I find these indicators are like an obvious flashing red light that has been overlooked

Georgie Holbrook

by doctors, holistic practitioners and psychotherapists because their search is isolated to the face. Looking for holistic answers means taking the whole person into consideration.

My message is that we are incredibly made, and our minds and bodies are willing and ready to heal; with the proper understanding, we can move from fear to faith.

CHAPTER 2

The Search for Answers

A few years ago, I wrote and self-published a self help book of my healing story which continues to be sold worldwide both in paperback and E-book. *Joy-Full Holistic Remedies, How to experience your natural ability to heal and CDs on additional things I learned about how to heal emotional and physical health challenges*. After writing my book I was left with some questions:

Why had my Rosacea become so extreme? Had I placed so much accumulated stress on my body that my immune system broke down? And if so, how could anyone allow this to happen by being so unaware of herself? What was it I had missed along the way?

I'm going to share with you what I've discovered in hopes of helping you search below the surface of Rosacea and acne for answers.

Currently, 45 million have Rosacea and far more have acne. Georgie Holbrook shares her own healing and 20-year experience of helping people around the world. She has recently discovered and reveals the inner components to healing overlooked by others who focus on the face, diet, vitamins, medical drugs or treatments.
