family, friends, quilters and creative minds.

Coloring Book. Designs

has 25 pages for you to color design blocks.

Use an assortment of color pencils (recommended 32–64) for best color selections. Look over the color block pages and select the one that you would like to color.

All selections are sized to make it easy for you to view and select colors of your choice.

A single block coloring page depicts just one block in the quilt and the second coloring page has blocks that show a full view.

The first half of this book is for activity in coloring designs, and the second half shows how patterns are used in quilting.

View the dynamic finished quilts in the second half of this book for your enjoyment and see the author's quilts. The fun part is you can color your design by choosing your favorite colors.

Be creative and select your color scheme.

My motto: "I make all my quilts with love."
